QUEEN'S LOUNGE, 4 & 5

Guest Speaker Jill Eyers explains how every rock has a story to tell. You need a little geology knowledge to read this 'rock' language, but it is really easy to learn. The talk will show you how to look at the rocks and the landscapes of the voyage with new eyes, so that you can start to unlock every story in stone as you explore these and other distant shores.

Did you know?

At a cost in excess of \$1,000,000 per ship, we have equipped many of our ships to enable them to plug into shore power facilities while in port. As the availability of shore power facilities increases at other ports around the globe, we expect to outfit the remainder of our fleet.
